

How to Grow Red Grano Onions from Seeds

Date Posted: February 24, 2017

photo credit: Mike the Gardener

Extremely popular and versatile home garden vegetable that is easily grown from seed. A staple in most kitchens that is eaten raw or cooked and used as a flavorful addition to the main course.

Planting Depth	Seed Spacing	Spacing Between Rows	Days to Germination	Spacing After Thinning	Days to Maturity
1/2"	1"	12"	10 to 15	2 to 3"	90 to 120

[When and Where to Plant Your Red Grano Onion Seeds](#)

Select sunny, well drained location and sow seed as soon as the ground can be worked. Cultivate soil and enrich with vegetable food and organic matter. Firm soil over seed. For early crop start seeds indoors eight to twelve weeks before planting outdoors. In frost-free regions plant in fall for spring harvest.

[How to Care for Your Red Grano Onions](#)

Keep soil weed free and feed your red grano onions every six to eight weeks.

How to Harvest Your Red Grano Onions

Allow red grano onion tops to fall and die before harvesting.

Health Note

Contain Calcium, Iron, and Vitamins A, B1, B2, Niacin and C
